## WELFARE HUT

### Objection to Site at Kingston

### UPHELD BY MINISTER

The site for the recreation hut to be erected by the Canberra Welfare Association is being changed following objections against the site selected at Kingston.

The Minister for the Interior (Senator Foll) said yesterday that adoption of the selected site would be a breach of the conditions of Canberra leases. It had been stipulated that no buildings would be erected on it, and that it would be reserved for tennis courts. Objections had been raised and he would not deprive people in the locality of their rights.

Senator Foll said he proposed to give the committee every possible assistance in securing an alternative site.

"I am in sympathy with the move and congratulate the committee and the people of Canberra on their initiative and generosity," he added.
