To whom it may concern,

I am writing to you today to express my Extream sadness at the idea of a dump in the middle of fyshwick. I regularly shop on Wiluna street I go up and down that road daily and I also know alot of shop owners in the area. I want you to know you are making a massive mistake!!! Not only are you going to DISTROY businesses but people will lose there jobs as a result to this ridiculous idea. There has got to be another way! Another road that could be built away from these businesses? Mabey of the high way? ... I am very upset about this as I my self would be turned of shopping in that area due to the large scale of traffic and trucks.. It already can be quite congested as it is. Please I am pleading with you to reconsider this plan as you do not understand the affect this will have on people, a shop owner I recently chattered with was very stressed and acting very down and worried about his livley hood if this plan was to go ahead.

Kind regards
