I am appalled that the ACT government is even considering such a mad idea. Fyshwick traffic is already congested without adding garbage trucks all day there. Not to say anything of the pollution & stench dumped into the area where so many businesses operate.

What is wrong with you people? The Kurrajong MLAs have been irresponsible & careless by not attending meetings that have been of the utmost importance to the businesses in the area. But just you wait until the next ACT election; they won't forget.
